

Chocodainty
Sweet Treats Crafted with Love

PERSONALIZED HAMPERS

CORPORATE GIFTING

The journey started in 2016, when two fledgling visionaries, Mrs. Chaitra Ramakrishna, Founder, and Mr. Karan N Balsa, Co-Founder met and discussed their zeal and passion to serve people delicious desserts. Despite the fact that the baking industry in India was teeming with innovators and was at the height of its growth and upward business trend at the time, the two visionaries who engraved their minds and souls in the F&B industry saw the need to update the recipes, packaging, and serving styles in the market.

Chocodainty is the epitome of what she believes and has accomplished: to provide joy to every dessert lover on the planet. With zeal in the heart, the founders believe in serving a bowl full of joy and happiness to all the Chocodaintians, assorted with various viscosity mixes of pure chocolate, milk, and an assortment of delectable flavors and recipes, ensuring everyone's palate "The Chocolicious" ecstasy.

From cheesecakes, pies, chocolates, fudges, cookies, and bouquets to mousse all gifts wrapped in the Chocodainty style, all are in for a treat with Chocodainty for a lifetime.

MR. KARAN N BALSA, CO-FOUNDER

"Stop saying "I WISH." Instead, start saying "I WILL." Once you begin thinking and believing this way, you are not too far from achieving your goals. The zeal and willpower backed by your knowledge reflect the product/service ultimatum."

- MRS. CHAITRA RAMAKRISHNA, FOUNDER

There is no end to success and learning in life or any industry. You keep achieving them in every great turning point of your life. Those great turns are called ``success moments", Mr. Karan.

Spreading Happiness

SPREADING HANDMADE HAPPINESS

"I've been an artist since childhood and always had an inclination towards craft. I used to give handmade gifts like album, scrapbook, cards, explosion boxes etc. to my near and dear ones and I got lot of appreciation from them, which encouraged me to convert my passion into profession. I feel so happy when people come to me to create some unique gifts."

"Craft has taught me to do what I Love & Love what I do. Crafting is very enjoyable for me because I make things that I can be proud of. I can express my creativity and enjoy the pleasure of expressing my inner thoughts and feelings", says Priya.

"These days social media is the best platform to reach millions of people, so, I created my craft page on the social media to post my handmade gift's pictures and videos, which helps me a lot to earned a name in the small business market of handmade gifts and to grow my business."- PRIYA KORIYA SHAH
